VT980 - 4G LIVE STREAM BODY WORN VIDEO CAMERA

The VT980 is our flagship Body Worn Video camera, with the most advanced set of features available, powered by the Qualcomm 8 core A53 chipset, including a 3.1" PS LCD touch screen and weighing only 220 g with a 3500 mAh battery.

The VT980 supports Push to Talk Over Cellular, a group communication technology based on standards-based IP connectivity that allows for communication across the globe at the touch of a button.

DIGITAL EVIDENCE VIDEO MANAGEMENT PLATFORM

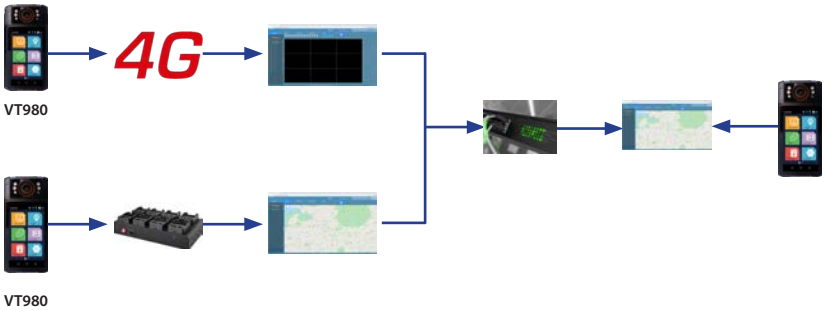
The Video Management Platform collects and stores the evidence collected on a Linux server housed in our Cyber Secure data centre based in the UK which means users can retrieve data and access at a later stage using a keyword search.

- Centralised Data Management
- Logging system for evidence retrival
- Push to Talk over Cellular (POC)
- Automatic upload to centralised storage
- GNSS location information record

Video Management Platform Additional Fuctions

- Geo Fencing
- Departmental Allocation
- QR Code Log-In
- Facial Recognition Database
- RTSP Feeds
- RTMP Feeds

Data Transfer Infrastructure



Specification

Display	*3.1-inch, IPS LCD touch screen*
Processor	Qualcomm 8-core chip A53, Ram 2G, ROM 16G (standard)
Dimensions	(H*W*D) - ≤118*62*25 mm
Weight	(with battery) ≤220g
Ingress Protection	IP68
Memory	32G/ 64G/128G
Accessory ports	3.5MM earpieces connector/Mini-USB/Pogo Pin
Field of View	Diagonal 140°, Horizontal 110°, Vertical 63°
Image Resolution	Max 36MP
Video Resolution	1920*1080, 1280*720, 848*480
Battery Capacity	3500mAh
Battery Life	≥10h (continuous video shooting with1440P, 1080P@30FPS, day time, normal operation)
Night Vision	Face Recognition ≤5m, Human Identify ≤10m
Positioning	GPS/ GLONASS / AGPS
Dual Band WiFi	2.4G/5.8G
Bluetooth	BT4.0 4.1 4.2
Charger	Double-unit charger
